assumptions and see real-time financial impact.

### **Pitch Deck & Document Generator**

Auto-generate investor pitch decks, NDAs, contracts, cold emails, and more — all customized to the founder's specific business idea.

### **Risk Matrix & SWOT/PESTEL**

Probability × Impact risk grid, comprehensive SWOT analysis, and PESTEL macro-factor assessment help founders anticipate challenges early.

## Why Programs Partner With Us

- ✓ **Replace weeks of manual research** — Every founder in your cohort gets instant market validation instead of spending their first month Googling competitors and guessing at market sizes.
- ✓ **Standardized quality across your cohort** — Every team starts with the same caliber of strategic analysis, regardless of their research experience or background.
- ✓ **Data-driven pivot decisions** — When a founder needs to pivot, ProfitBot instantly scores the new direction. No more 3-week validation cycles.
- ✓ **Investor-ready outputs** — Pitch decks, financial models, and strategy reports are generated in formats investors expect to see.
- ✓ **Reduce mentor time on basics** — Mentors spend less time on market 101 and more time on high-value strategic guidance.
- ✓ **Track cohort progress** — Group dashboards show which teams are progressing, pivoting, or need intervention.
